-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on Jan 20, 2006 has been entered.

Status of Application

2. Claims 1-27 are pending, claims 9 and 12 are withdrawn from consideration.

Claim Objections

3. Claim 17 is objected to because of the following informalities: in line 1, the claim number appears twice. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. Claims 13, 14, 15, 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 13, lines 2-4, as regards the recitation of the various portions to the planetary gear it is not clear whether these recited elements are the same elements recited in claim 1 or are further elements. Similarly in claim 14, lines 2-3; claim 15, line 2; claim 16, line 2 it is no clear whether the first and

Art Unit: 3618

second gear pairs (claim 14), the first transfer elements (claim 15), or second transfer elements (claim 16) refer to portions recited in claim 1 or to further elements.

Allowable Subject Matter

5. Claims 1-8, 10, 11 and 17-27 are allowed.
6. Claims 13-16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
7. Claims 9 and 12 remain withdrawn from consideration, in view of allowable claim 1 not being generic to all species

Response to Comments

8. Applicant's comments, filed with the amendment, have been carefully considered. As regards the reference to Tabata et al., the examiner agrees that the claims, as amended (or as presented, in regard to new claim 27) define beyond the previously applied reference to Tabata et al. inasmuch as the previous interpretation of the rotary connection cannot be applied in view of applicant's amendment. Further the reference to Tabata et al. would not admit of modification to replace the actuation scheme with one which was based on relative movements of the transfer device itself, inasmuch as such a modification would seriously impair, if not destroy, the operation of the transfer device.
